

Dear 5th Grade Students and Families,

Welcome! I am so excited about having the opportunity to know you and your child better and I'm looking forward to a happy and productive school year.

Here at St. Michael, our students are encouraged to persevere, make connections, work collaboratively, and think critically when solving problems. I aim to be a facilitator who promotes this kind of learning, encouraging students to explore and extend their learning in ways that are meaningful for each individual. Our students are also guided to act in caring and compassionate ways towards all members of our school family, and I am sure you are well aware of how considerate and helpful our students are.

I sincerely believe that communication between parents and teachers is the key to a successful school. I welcome you to communicate with me through email during the summer, and once school starts, by phone and in person. Please feel free to reach out to me with any concerns you may have regarding your child's social, emotional, or academic growth. Together we will make this school year wonderful!

I am truly looking forward to getting to know you better and learning beside you and your child in the coming school year.

Sincerely,

Cam White
